SUMMARY

- Front-End Developer with 4+ years of experience in ReactJs, delivering scalable applications, achieving 25percent user engagement growth.
- Collaborated in Scrum and Agile teams to boost productivity by 20percent.
- Delivered project goals through effective sprint planning and code reviews.
- Proficient in developing and maintaining scalable, responsive web applications using React, with expertise in both component and functional based architecture, state management with React hooks and Redux toolkit, and modern JavaScript (ES6+).
- Skilled in translating UI/UX designs into responsive, interactive web pages while ensuring cross-browser compatibility and performance optimization, with experience in developing over 400 components.

SKILLS

- **Front-end:** React.js, React Hooks, React Router, Redux Toolkit, JavaScript, HTML5, CSS3, Sass/SCSS, Bootstrap.
- **Tools:** Visual Studio Code, JIRA, React DevTools, Browser Developer tools, SonarQube
- **Version Control and CI/CD Tools:** Git, TortoiseGit, GitHub, Jenkins.
- **Performance Monitoring:** Lighthouse.
- **Web Accessibility:** axe DevTools, Wave Evaluation Tool, WCAG Color contrast checker.
- **Methodologies:** Agile, Scrum methodologies

PROFESSIONAL EXPERIENCE

INFOSYS LTD, Bangalore-Technology Analyst

Client: *Southern California Edison Company (SCE)* | Jan 2021 - Present

- Streamlined requirements gathering with standardized templates, boosting team efficiency by 25percent.
- Projected project efforts and timelines strategically, ensuring seamless and timely delivery of successful outcomes.
- **Managed a team** of 5 developers to design and deploy a scalable React-based application, achieving a 25percent increase in user engagement within the first quarter.
- Facilitated Scrum and Agile processes specially **sprint planning**, improving team efficiency by 20percent.

Project 1: DSS Customer Communication My Account Refresh: Enhanced energy usage monitoring for Southern California Edison's customer portal by integrating a new Usage page with dynamic D3.js charts.

- **Built dynamic graphs and charts** for Single Page Applications using D3.js, improving data readability by 80percent.
- Integrated various chart types, including Bar charts, Stacked Bar charts and Comparison Bar charts, based on **real-time responses from the backend systems using REST API** methods.
- Enhanced bug resolution by 40percent through detailed reporting and React Developer Tools.
- Collaborated with Quality Assurance, Drupal, UI (User Interface) and UX (User Experience), Microservice and Backend teams to resolve UI issues.

Project 2: Alerts and Notification Phase 1: Enhanced Southern California Edison's portal pages based on user feedback on functionality and design.

- **Engineered scalable and responsive UI components** using ReactJs, Html, CSS3, Sass/SCSS, increasing page load speed by 30percent and improving user retention by 15percent.
- Improved code quality by 30percent by **implementing SonarQube standards and thorough testing** and Jest testing enabling early issue identification, promoting best practices, and minimizing technical debt.
- **Managed Continuous Integration/Continuous Deployment pipelines** to automate deployment processes in Jenkins and ensured robust version control using *Git*, *TortoiseGit* and *GitHub*.
- **Implemented Web Content Accessibility Guidelines**-compliant accessibility features, ensuring applications are inclusive and user-friendly for all.

Project 3: Spark Network Automation: Developed and integrated a new employee dashboard into an existing website, incorporating Material UI components to enable Spark employees to manage inquiries, provisioning, modifications, and decommissioning of location, device, access, and services using identity and service ID numbers.

- Played a pivotal role in **refining and enhancing UI design elements** to ensure a polished and visually cohesive user experience, with *Figma* serving as the reference tool for design iterations.
- **Partnered with UI/UX designers** to implement Figma-based designs, improving user satisfaction by 15percent.
- **Produced comprehensive project documentation**, encompassing flowcharts and diagrams, to improve clarity and communication throughout the development process by approximately 30percent.

ACHIEVEMENTS

- **H1B Visa Nomination:** Nominated for an *H1B CAP FY25* visa and issued a [Work permit](#) due to exceptional React development and project leadership.
- **Awards:** Received Rise Insta award in recognition of my contributions to multiple projects over the years, spanning various quarter.
[October 2023](#):- Admiring dedication and recognizing my instrumental role in the successful project go-live.
[March 2024](#):- Recognized for implementing View Usage module, enhancing functionality for 10,000+ users.
[June 2024](#) :- Appreciating my hard work and contributions in multiple releases of DSS project.
- **Recognition:** Earned special recognition from Team Leads and Technology Architects for consistently delivering high-quality, clean, and maintainable code across multiple projects.

CERTIFICATIONS

- Certified React Professional ([Infosys Ltd](#))
- Certified Front-End Web Developer ([Infosys Ltd](#))
- Global Agile Developer Certification ([Infosys Ltd](#))
- Business Communication Level 6 ([Learnship.com](#))

EDUCATION

Bachelor of Technology in Computer Science and Engineering:

Lourdes Matha College of Science and Technology, Kuttichal, TVM Kerala, India (2016 – 2020)
